

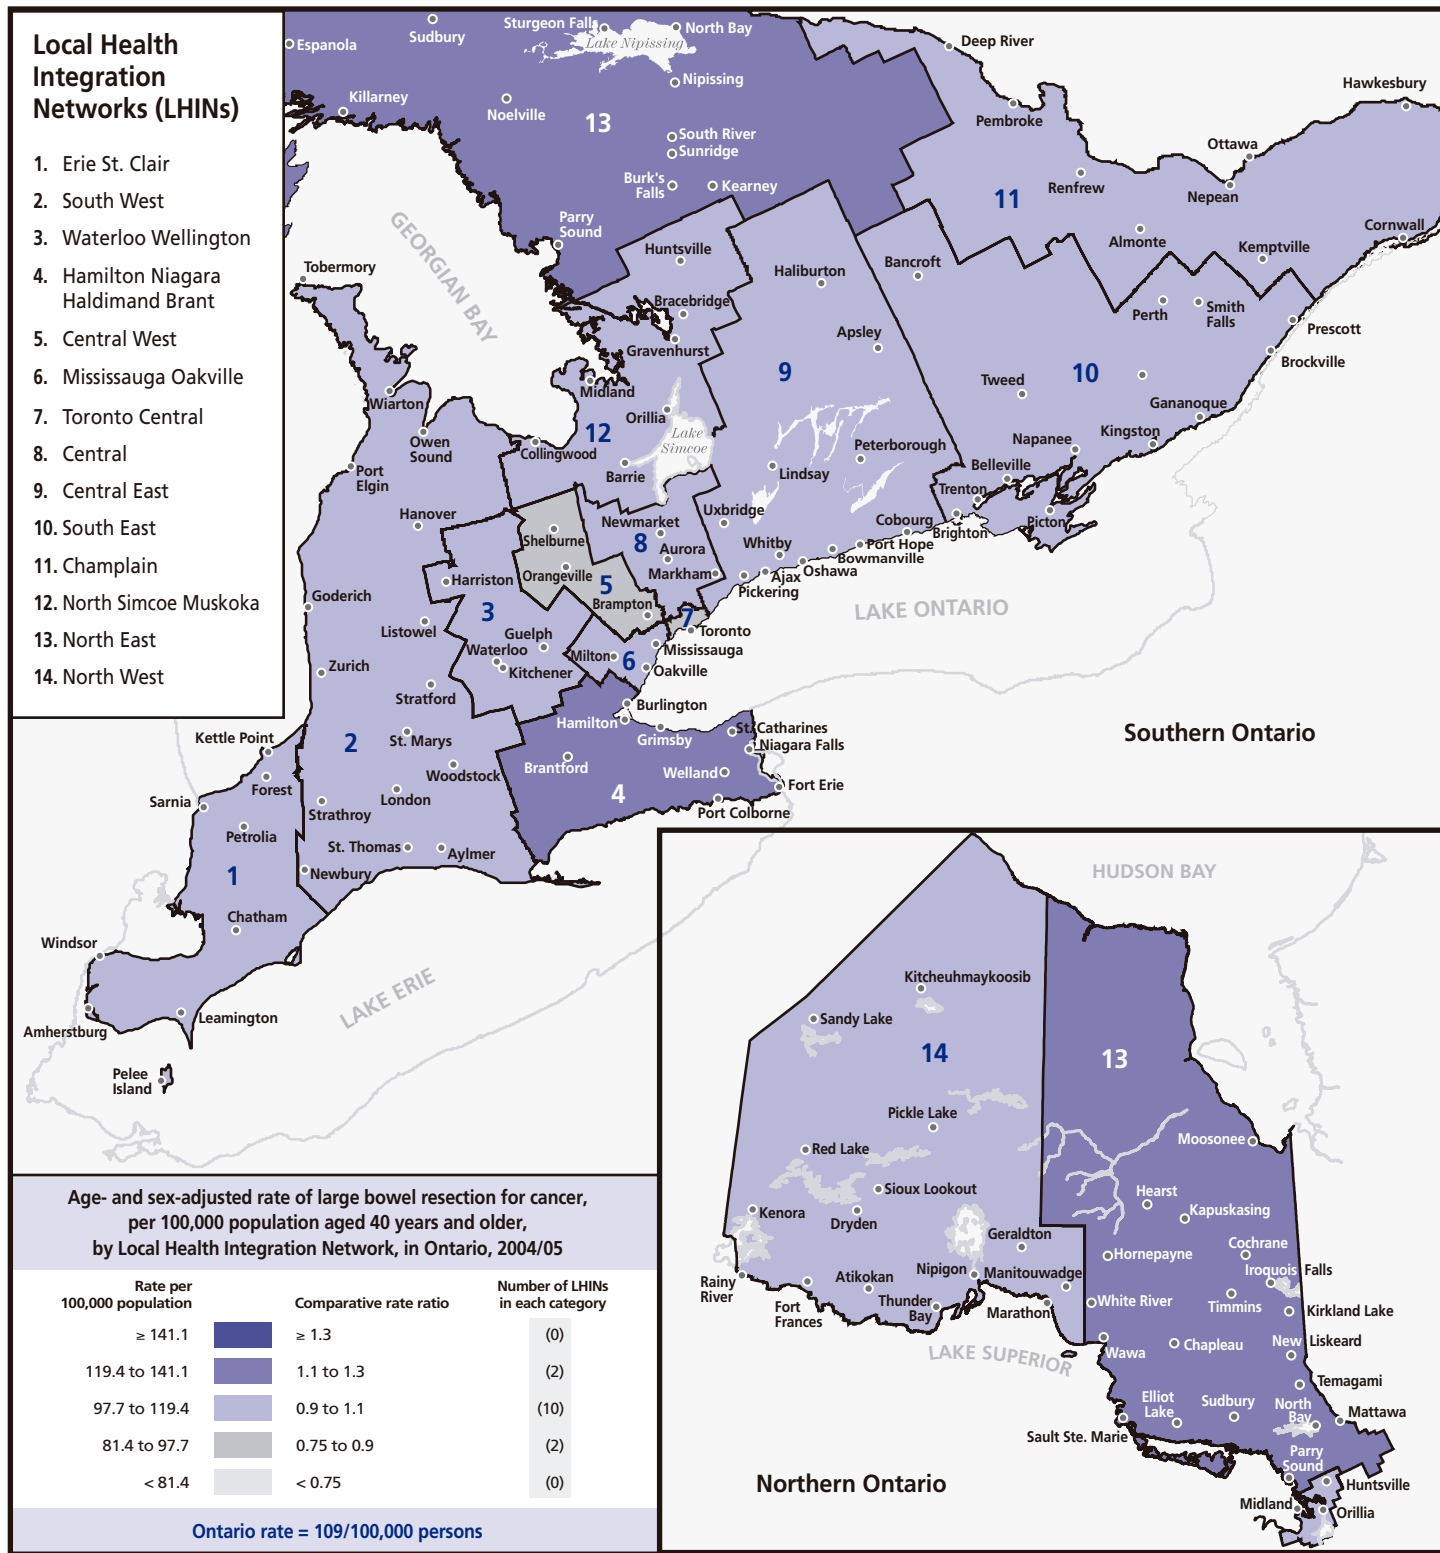

Map 1

Age- and sex-adjusted rate of large bowel resection for cancer, per 100,000 population aged 40 years and older, by Local Health Integration Network, in Ontario, 2004/05

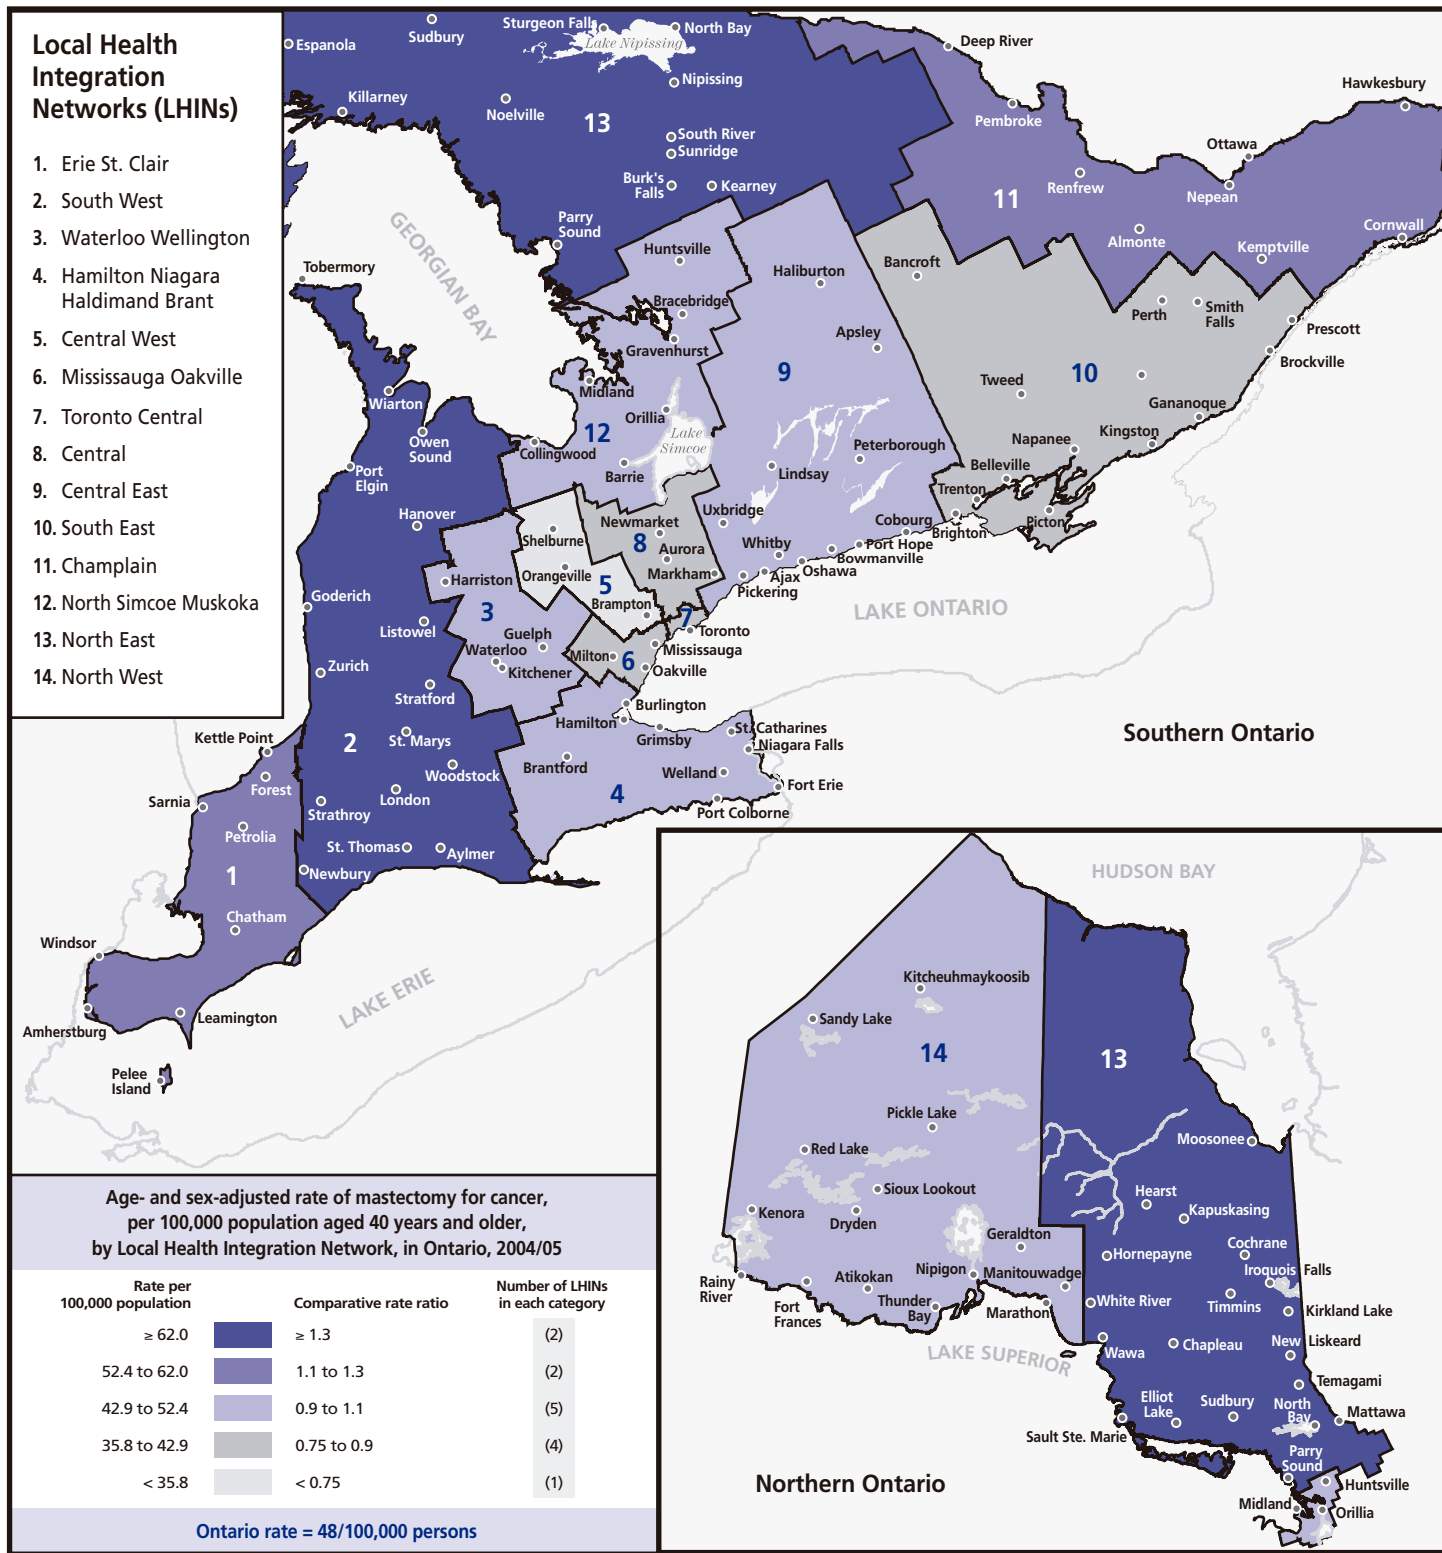

Sources: Canadian Institute for Health Information—Discharge Abstract Database (CIHI-DAD) and National Ambulatory Care Reporting System (CIHI-NACRS); Ministry of Health and Long-Term Care—Registered Persons Database (MOHLTC-RPDB); Statistics Canada—Postcensal population estimates and Postal Code Conversion File

Map 2

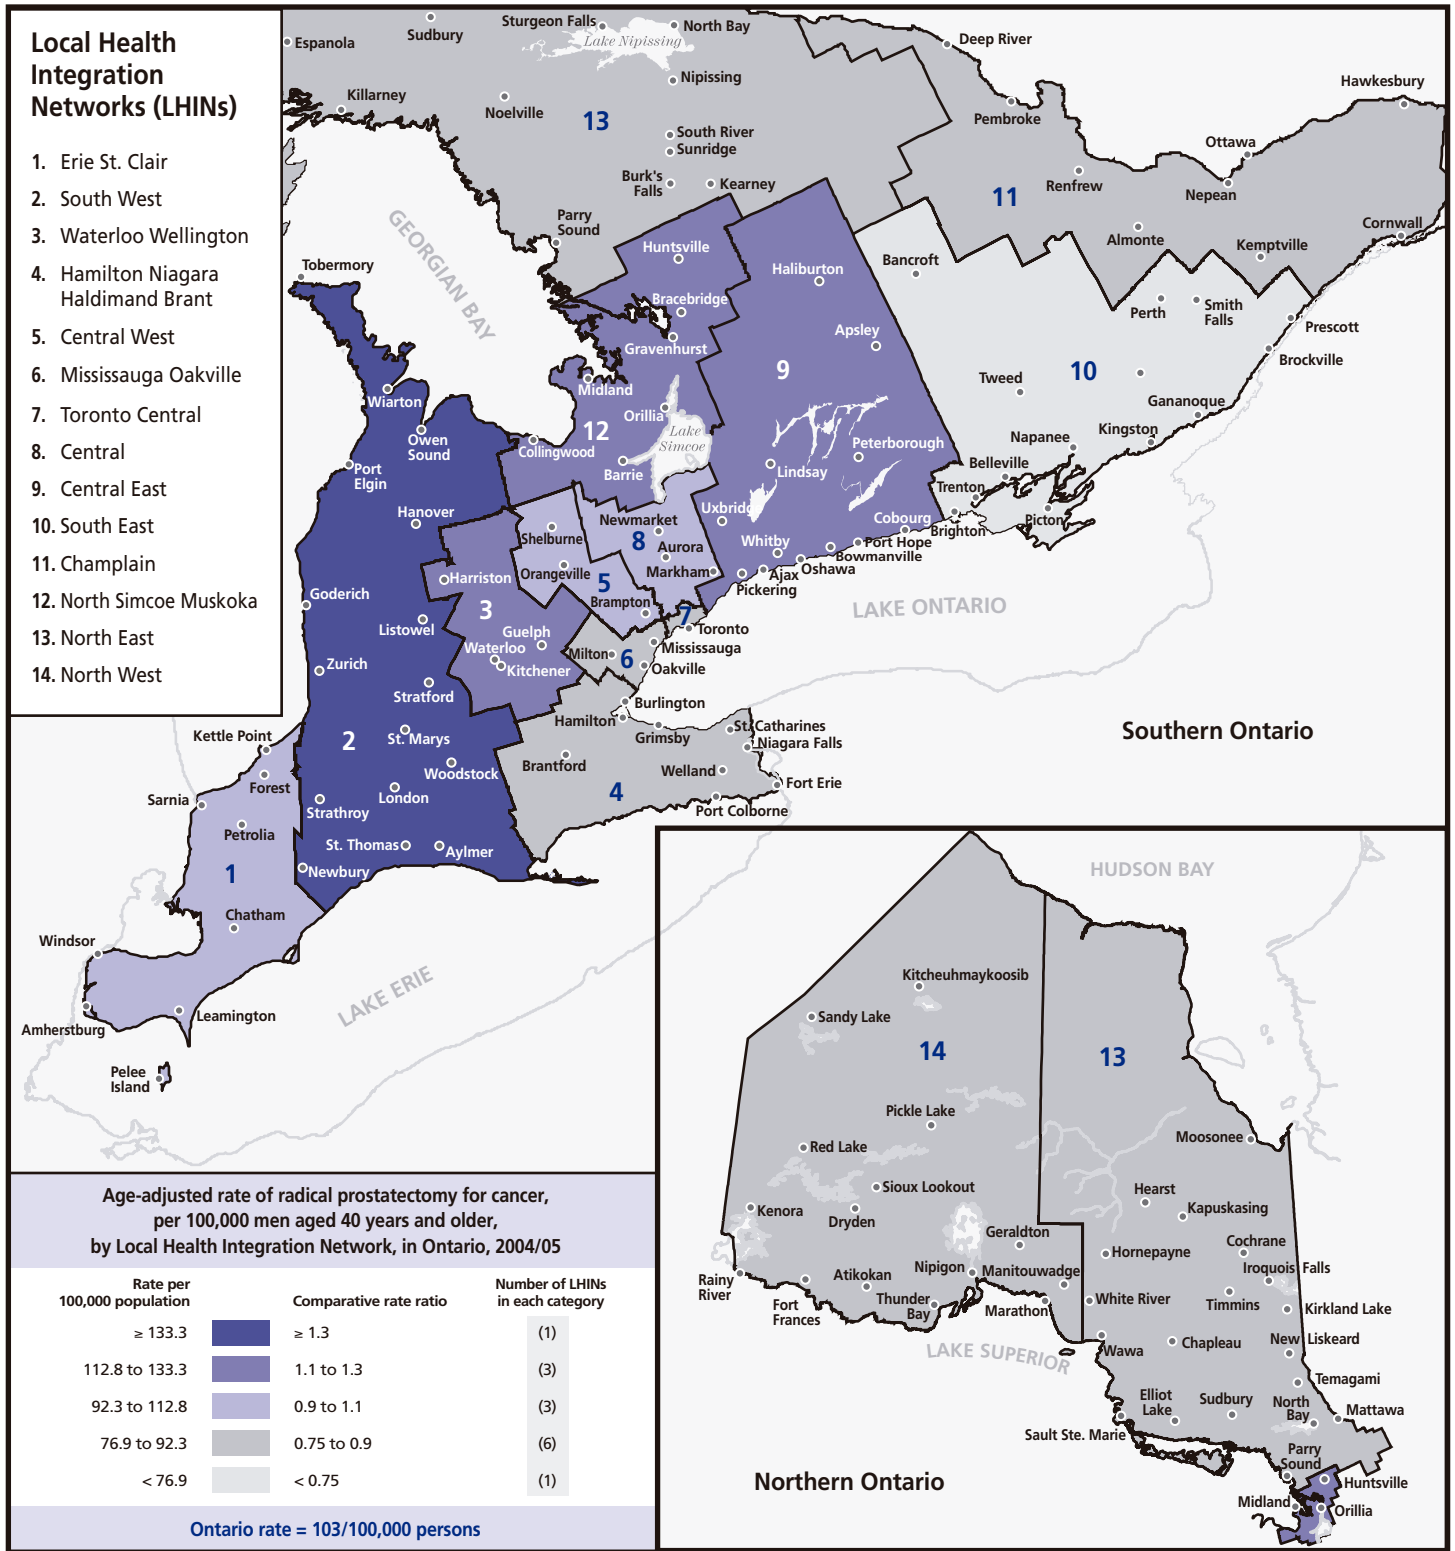

Age- and sex-adjusted rate of mastectomy for cancer, per 100,000 population aged 40 years and older, by Local Health Integration Network, in Ontario, 2004/05

Sources: Canadian Institute for Health Information–Discharge Abstract Database (CIHI-DAD) and National Ambulatory Care Reporting System (CIHI-NACRS); Ministry of Health and Long-Term Care–Registered Persons Database (MOHLTC-RPDB); Statistics Canada–Postcensal population estimates and Postal Code Conversion File

Map 3

Age-adjusted rate of radical prostatectomy for cancer, per 100,000 men aged 40 years and older, by Local Health Integration Network, in Ontario, 2004/05

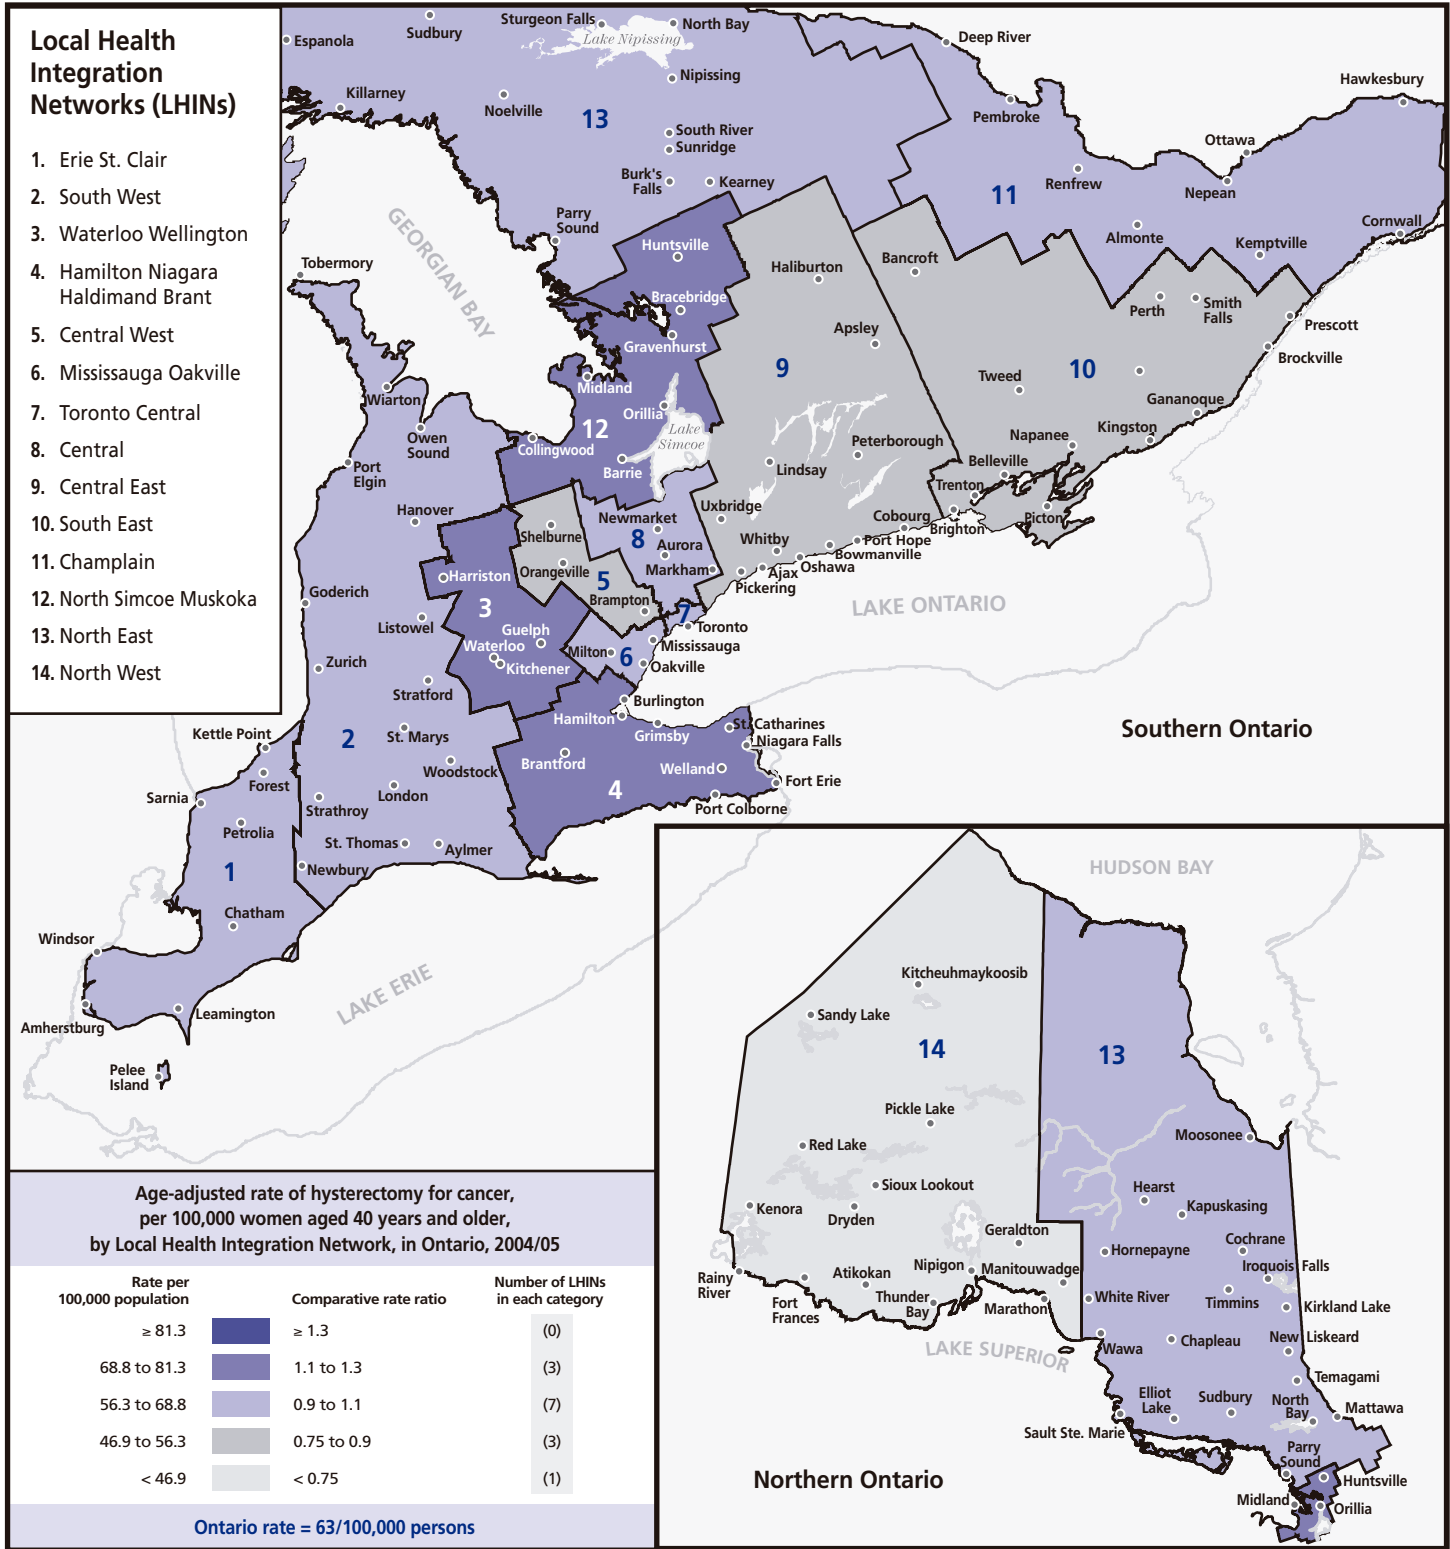

Sources: Canadian Institute for Health Information—Discharge Abstract Database (CIHI-DAD) and National Ambulatory Care Reporting System (CIHI-NACRS); Ministry of Health and Long-Term Care—Registered Persons Database (MOHLTC-RPDB); Statistics Canada—Postcensal population estimates and Postal Code Conversion File

Map 4

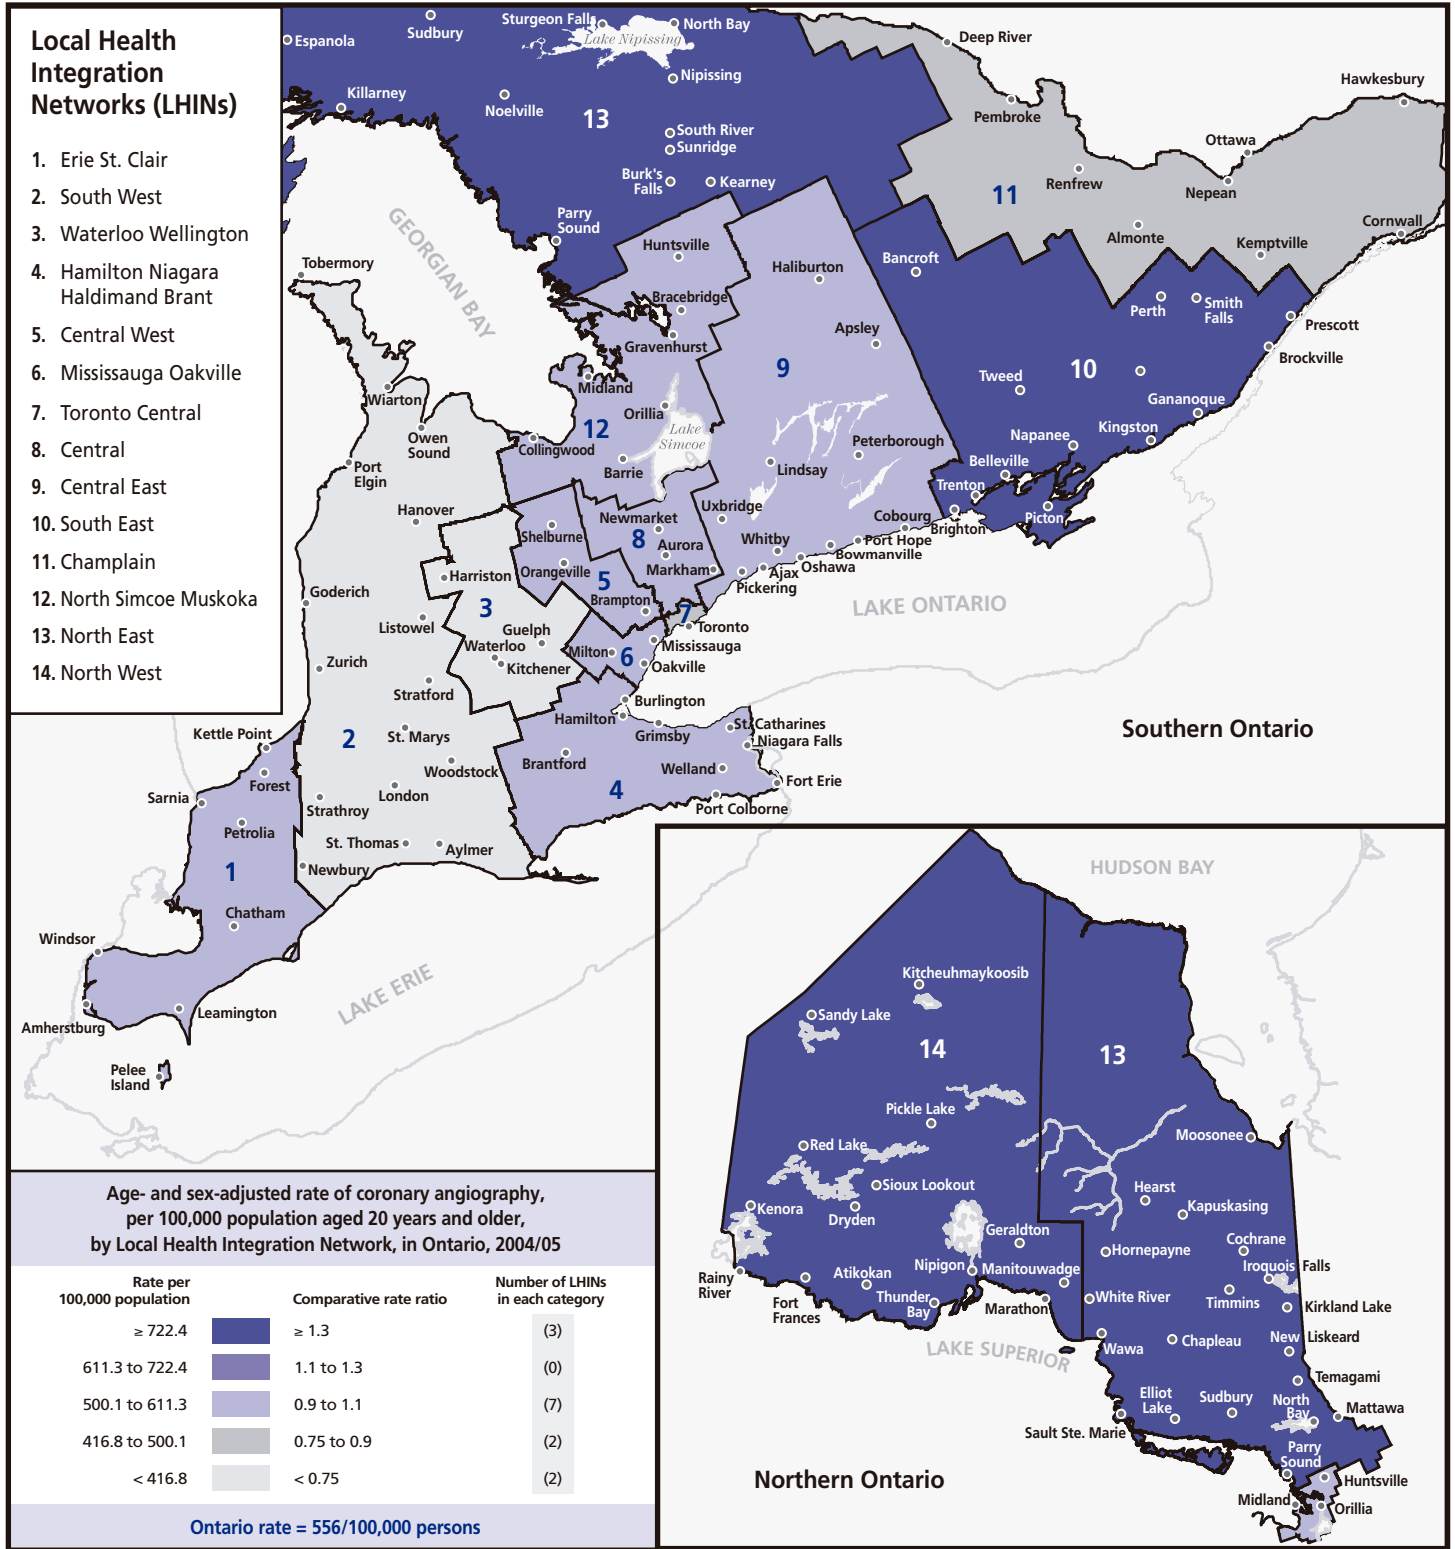

Age-adjusted rate of hysterectomy for cancer, per 100,000 women aged 40 years and older, by Local Health Integration Network, in Ontario, 2004/05

Sources: Canadian Institute for Health Information—Discharge Abstract Database (CIHI-DAD) and National Ambulatory Care Reporting System (CIHI-NACRS); Ministry of Health and Long-Term Care—Registered Persons Database (MOHLTC-RPDB); Statistics Canada—Postcensal population estimates and Postal Code Conversion File

Map 5

Age- and sex-adjusted rate of coronary angiography, per 100,000 population aged 20 years and older, by Local Health Integration Network, in Ontario, 2004/05

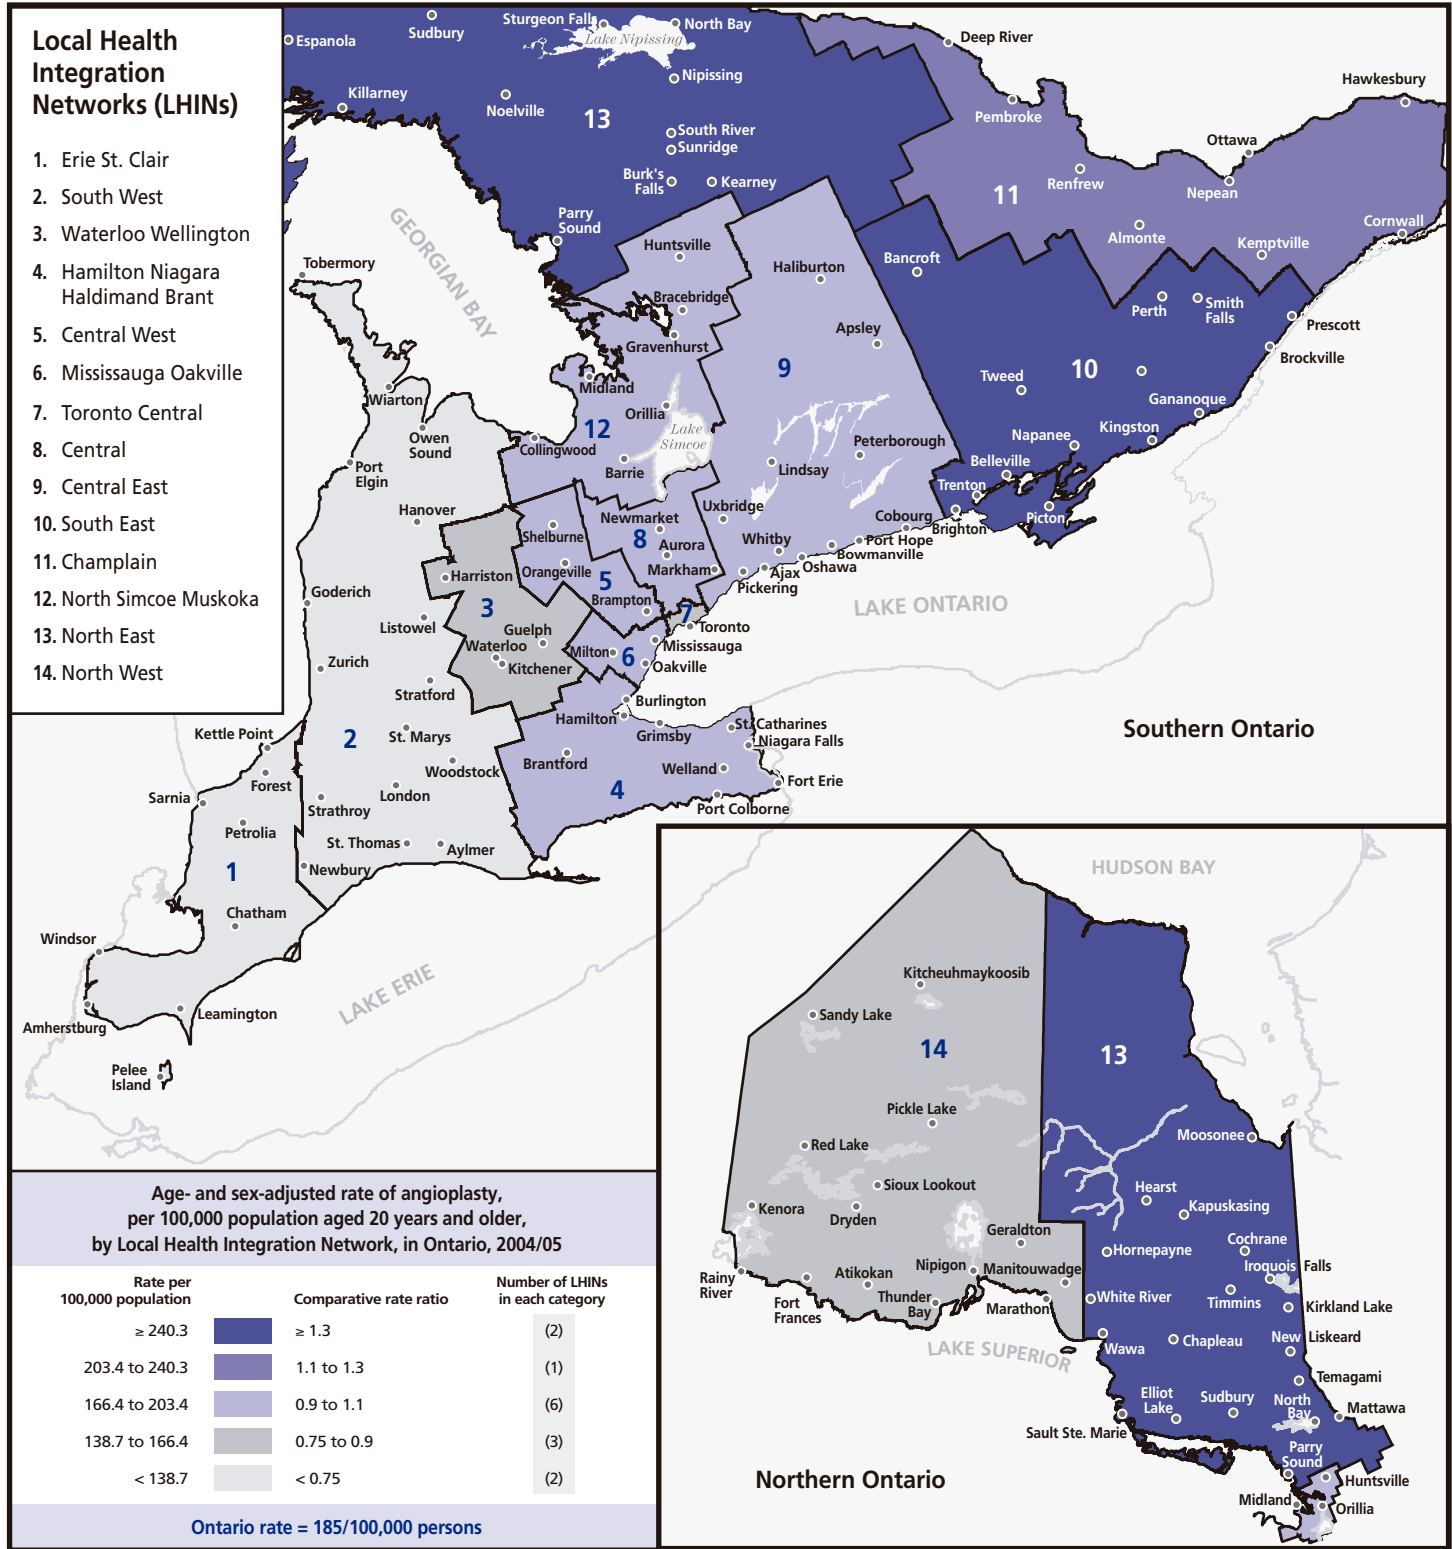

Sources: Cardiac Care Network of Ontario; Ministry of Health and Long-Term Care—Registered Persons Database (MOHLTC-RPDB); Statistics Canada—Postcensal population estimates and Postal Code Conversion File

Map 6

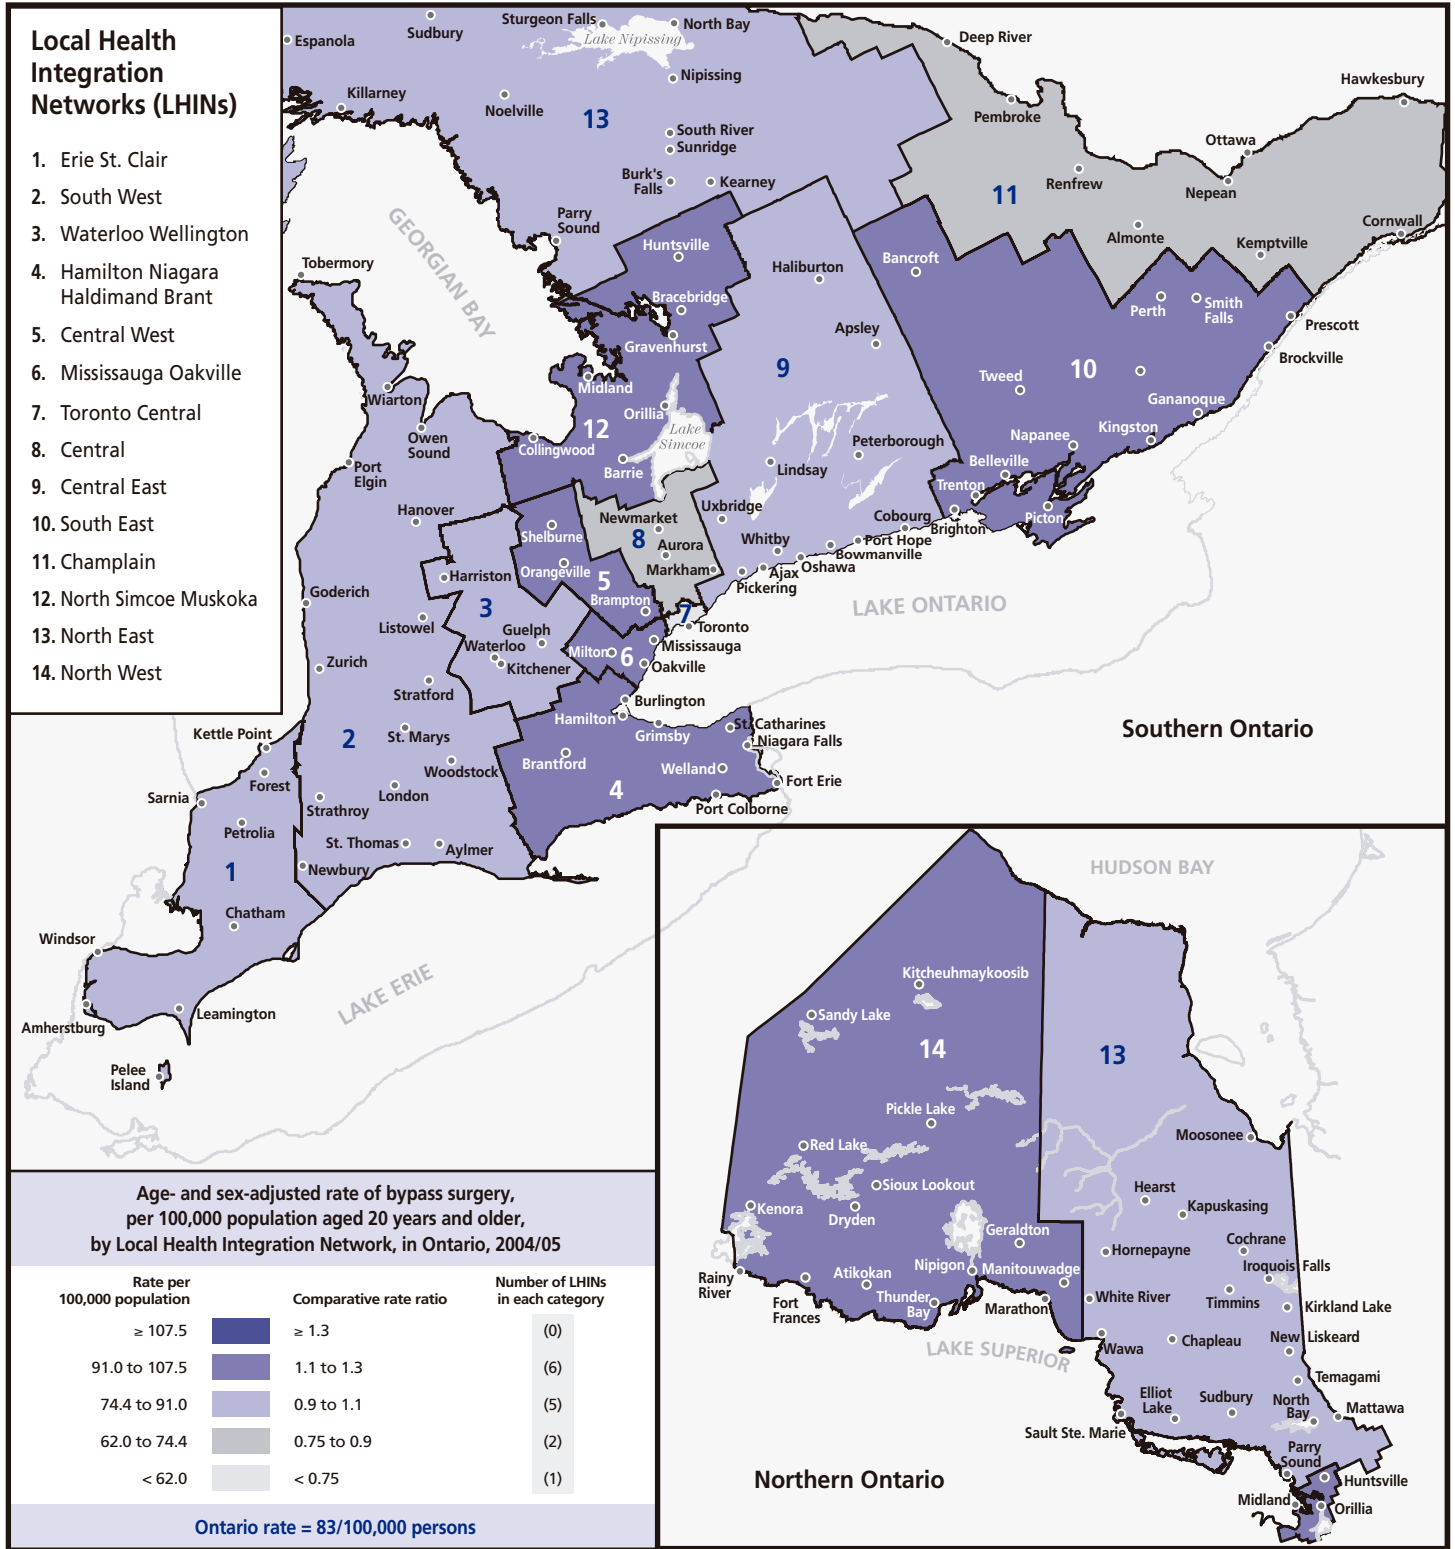

Age- and sex-adjusted rate of angioplasty, per 100,000 population aged 20 years and older, by Local Health Integration Network, in Ontario, 2004/05

Sources: Cardiac Care Network of Ontario; Ministry of Health and Long-Term Care—Registered Persons Database; Statistics Canada—Postcensal population estimates and Postal Code Conversion File

Map 7

Age- and sex-adjusted rate of bypass surgery, per 100,000 population aged 20 years and older, by Local Health Integration Network, in Ontario, 2004/05

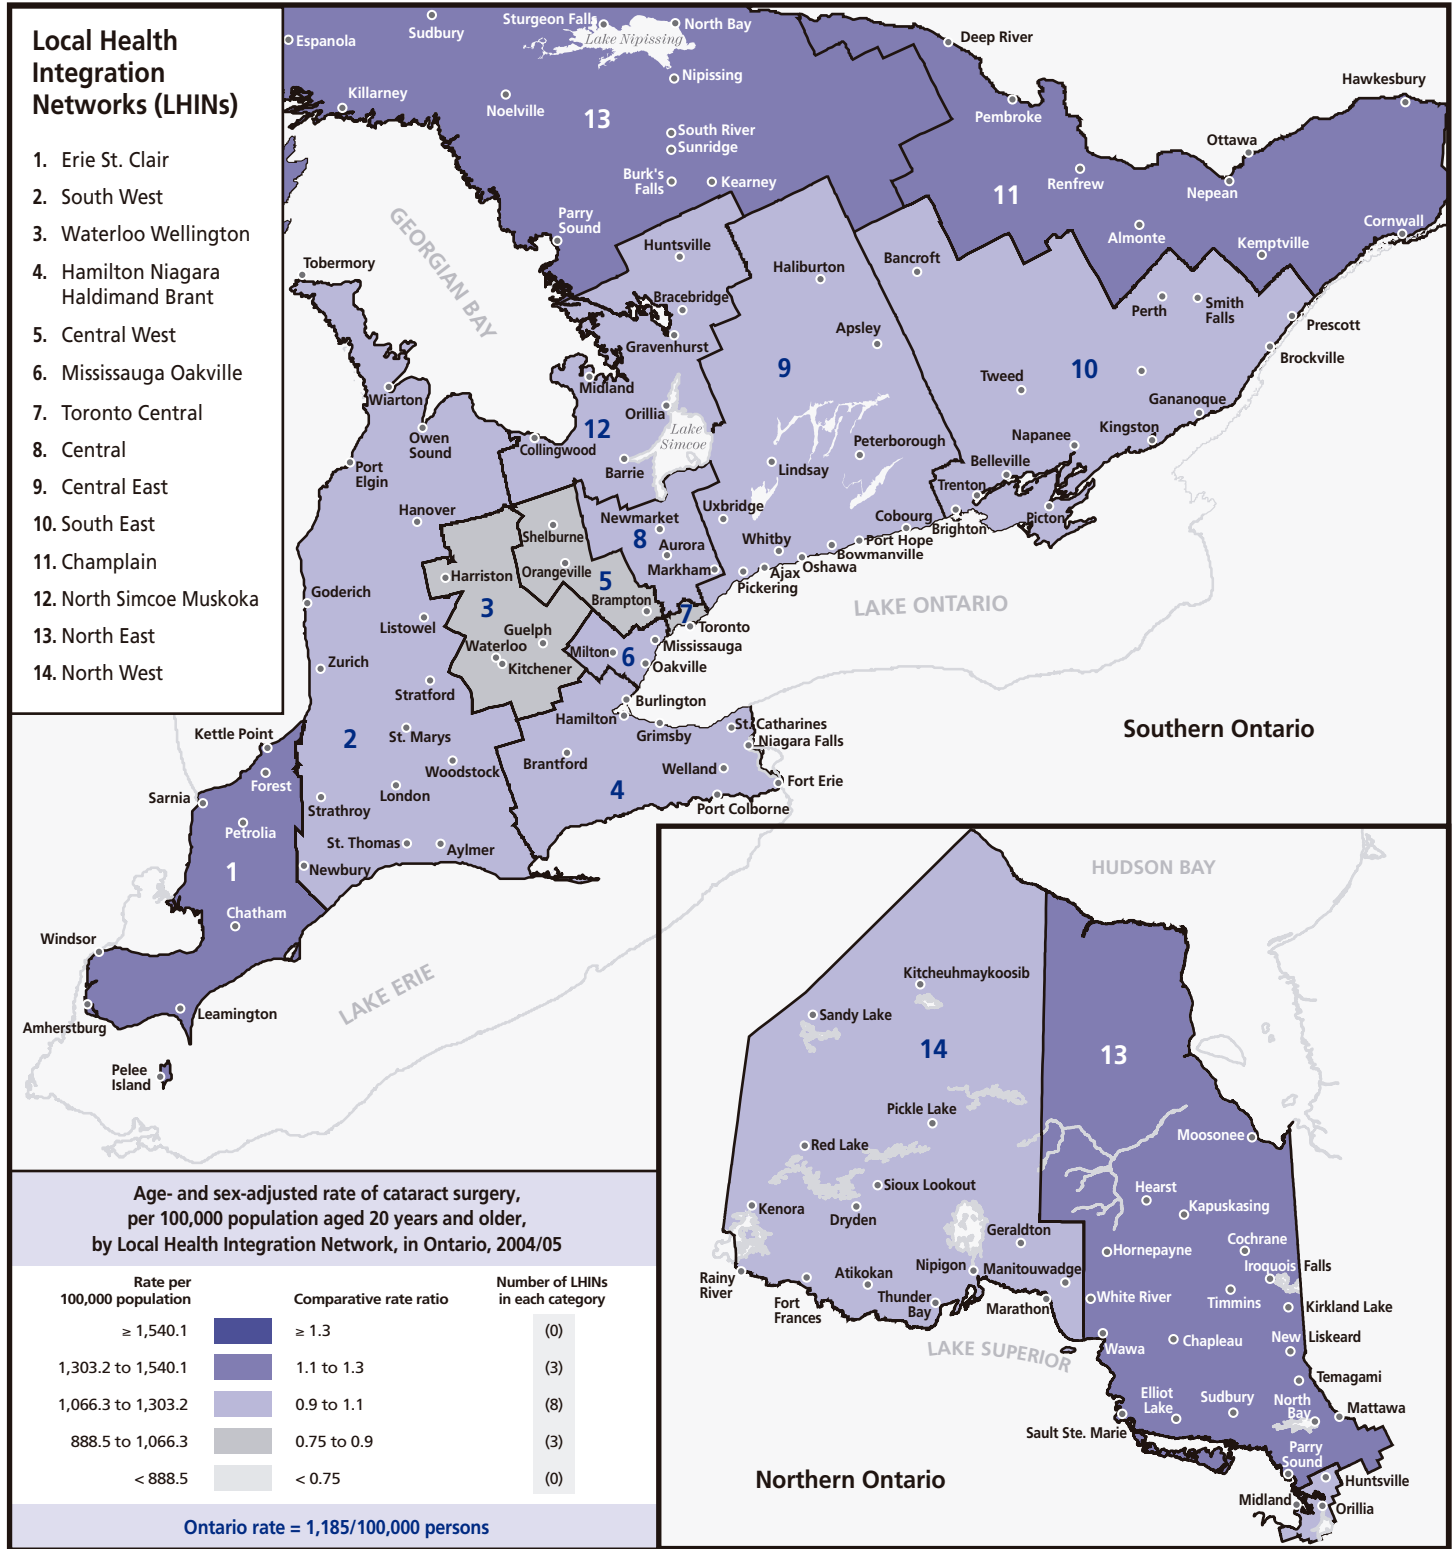

Sources: Cardiac Care Network of Ontario; Ministry of Health and Long-Term Care—Registered Persons Database (MOHLTC-RPDB); Statistics Canada—Postcensal population estimates and Postal Code Conversion File

Map 8

Age- and sex-adjusted rate of cataract surgery, per 100,000 population aged 20 years and older, by Local Health Integration Network, in Ontario, 2004/05

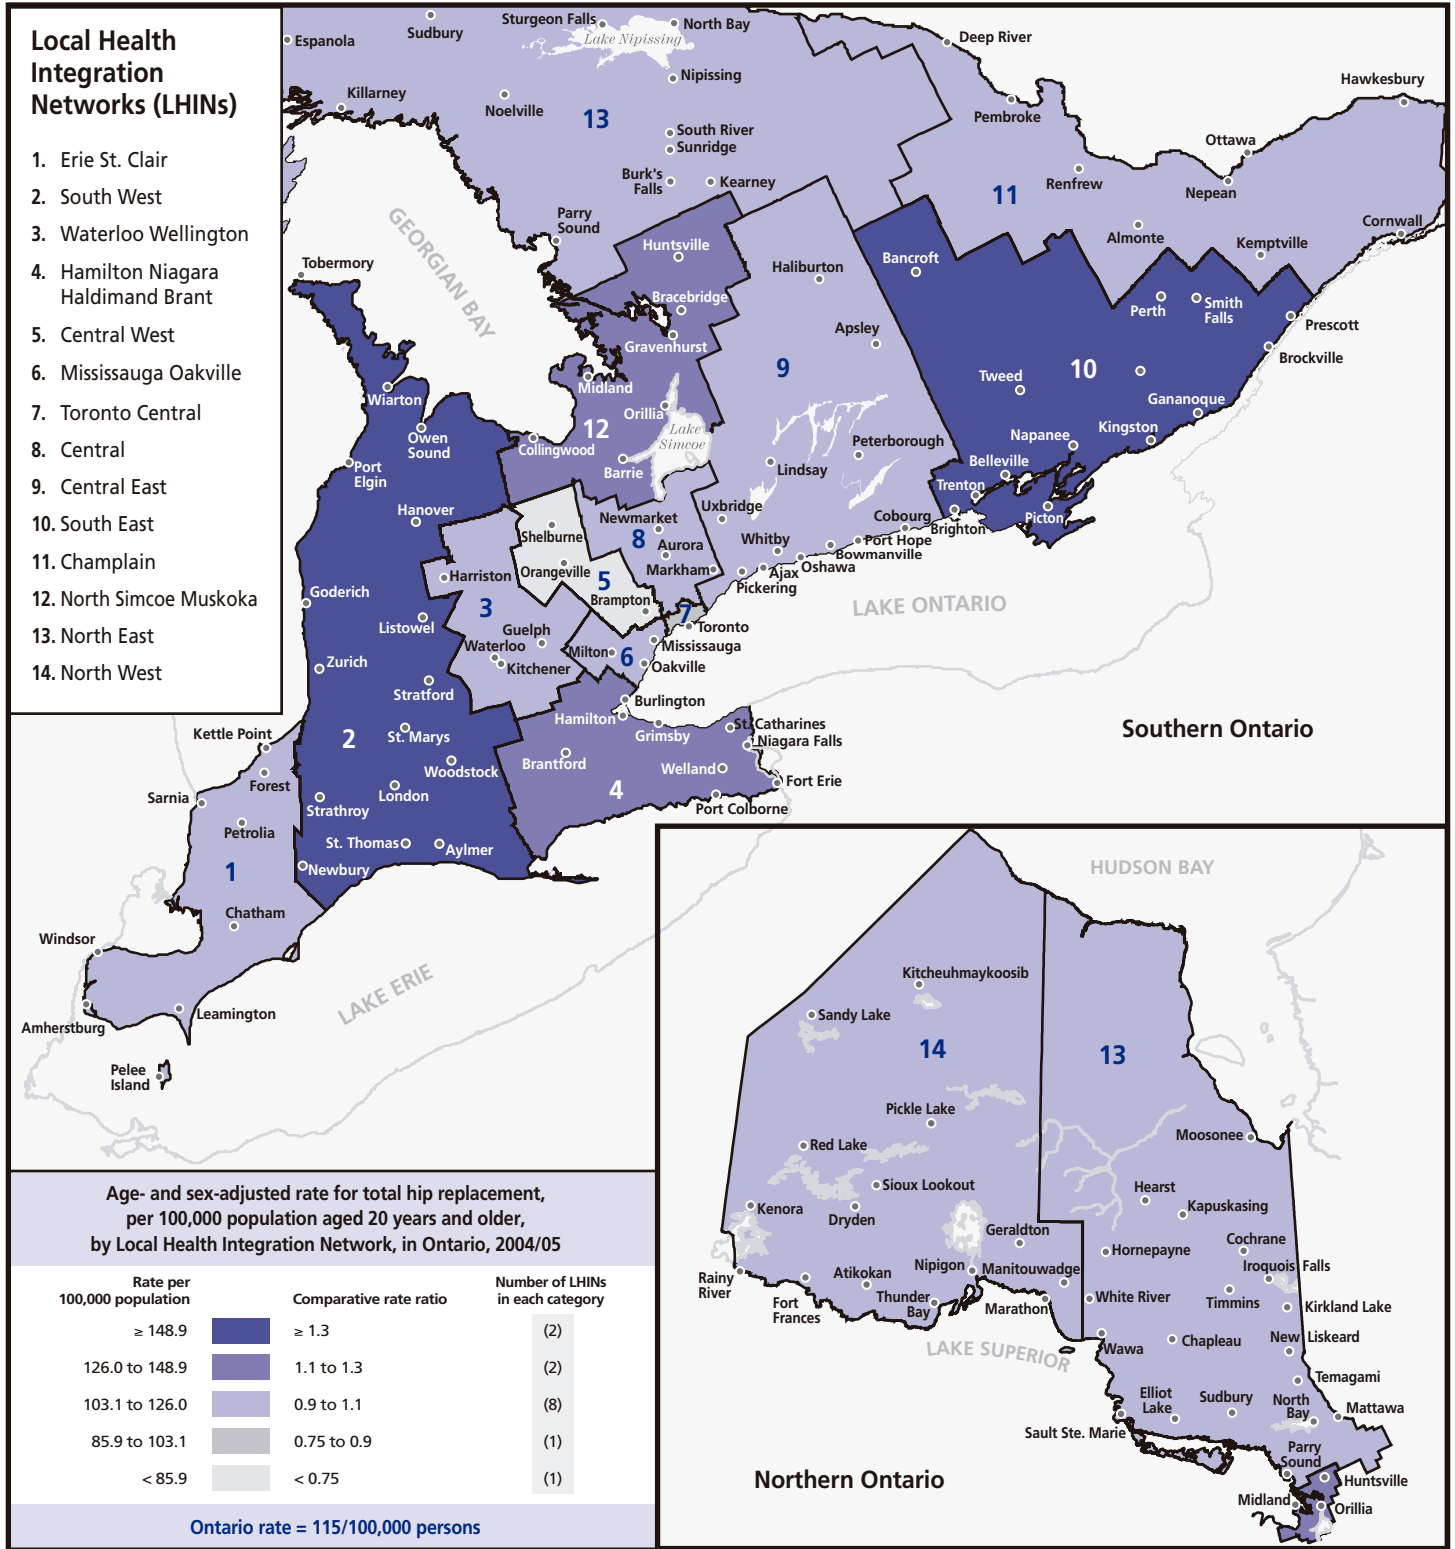

Sources: Canadian Institute for Health Information—Discharge Abstract Database (CIHI-DAD) and National Ambulatory Care Reporting System (CIHI-NACRS); Ministry of Health and Long-Term Care—Ontario Health Insurance Plan (MOHLTC-OHIP), Registered Persons Database (MOHLTC-RPDB); Statistics Canada—Postcensal population estimates and Postal Code Conversion File

Map 9

Age- and sex-adjusted rate of total hip replacement, per 100,000 population aged 20 years and older, by Local Health Integration Network, in Ontario, 2004/05

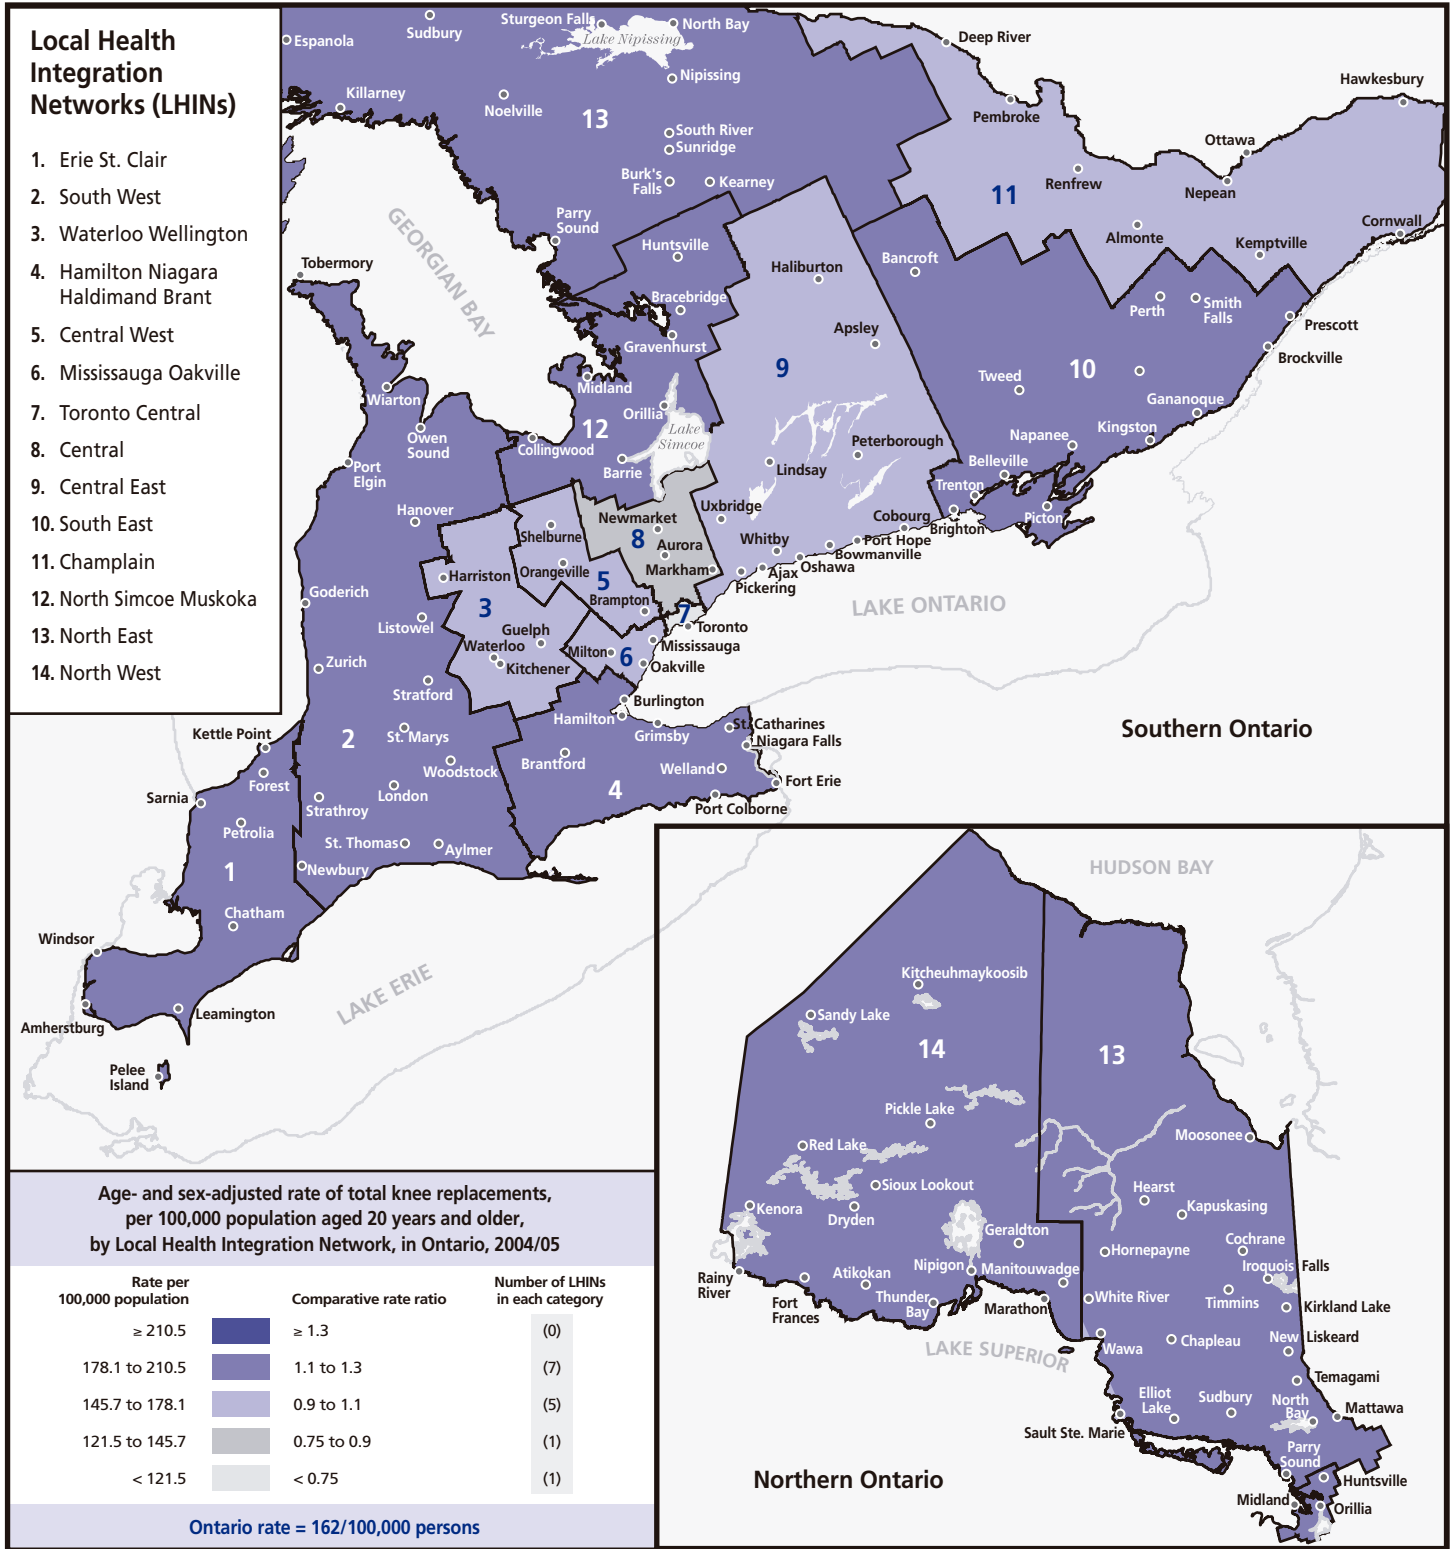

Sources: Canadian Institute for Health Information—Discharge Abstract Database (CIHI-DAD); Statistics Canada—Postcensal population estimates and Postal Code Conversion File

Map 10

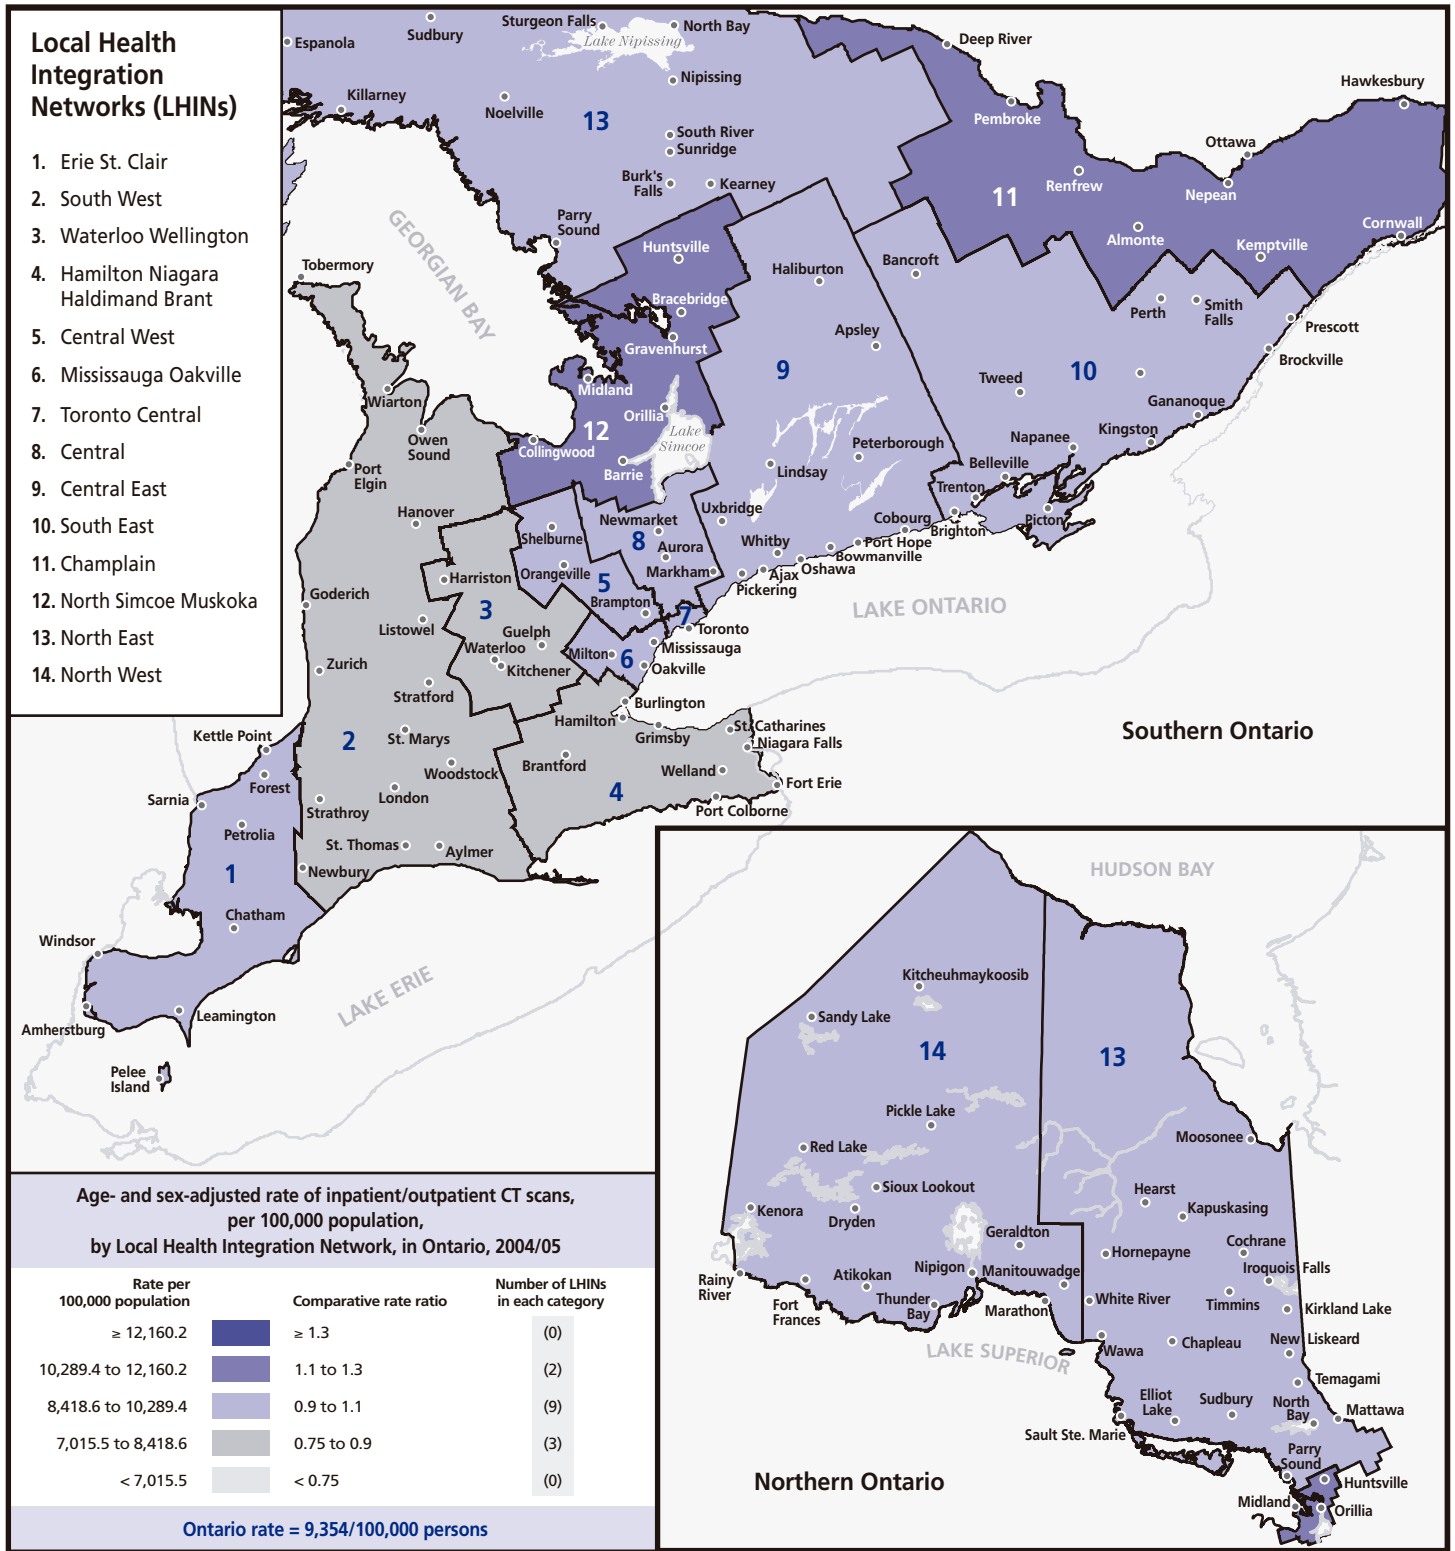

Age- and sex-adjusted rate of total knee replacements, per 100,000 population aged 20 years and older, by Local Health Integration Network, in Ontario, 2004/05

Sources: Canadian Institute for Health Information—Discharge Abstract Database (CIHI-DAD); Statistics Canada—Postcensal population estimates and Postal Code Conversion File

Map 11

Age- and sex-adjusted rate of inpatient/outpatient CT scans, per 100,000 population, by Local Health Integration Network, in Ontario, 2004/05

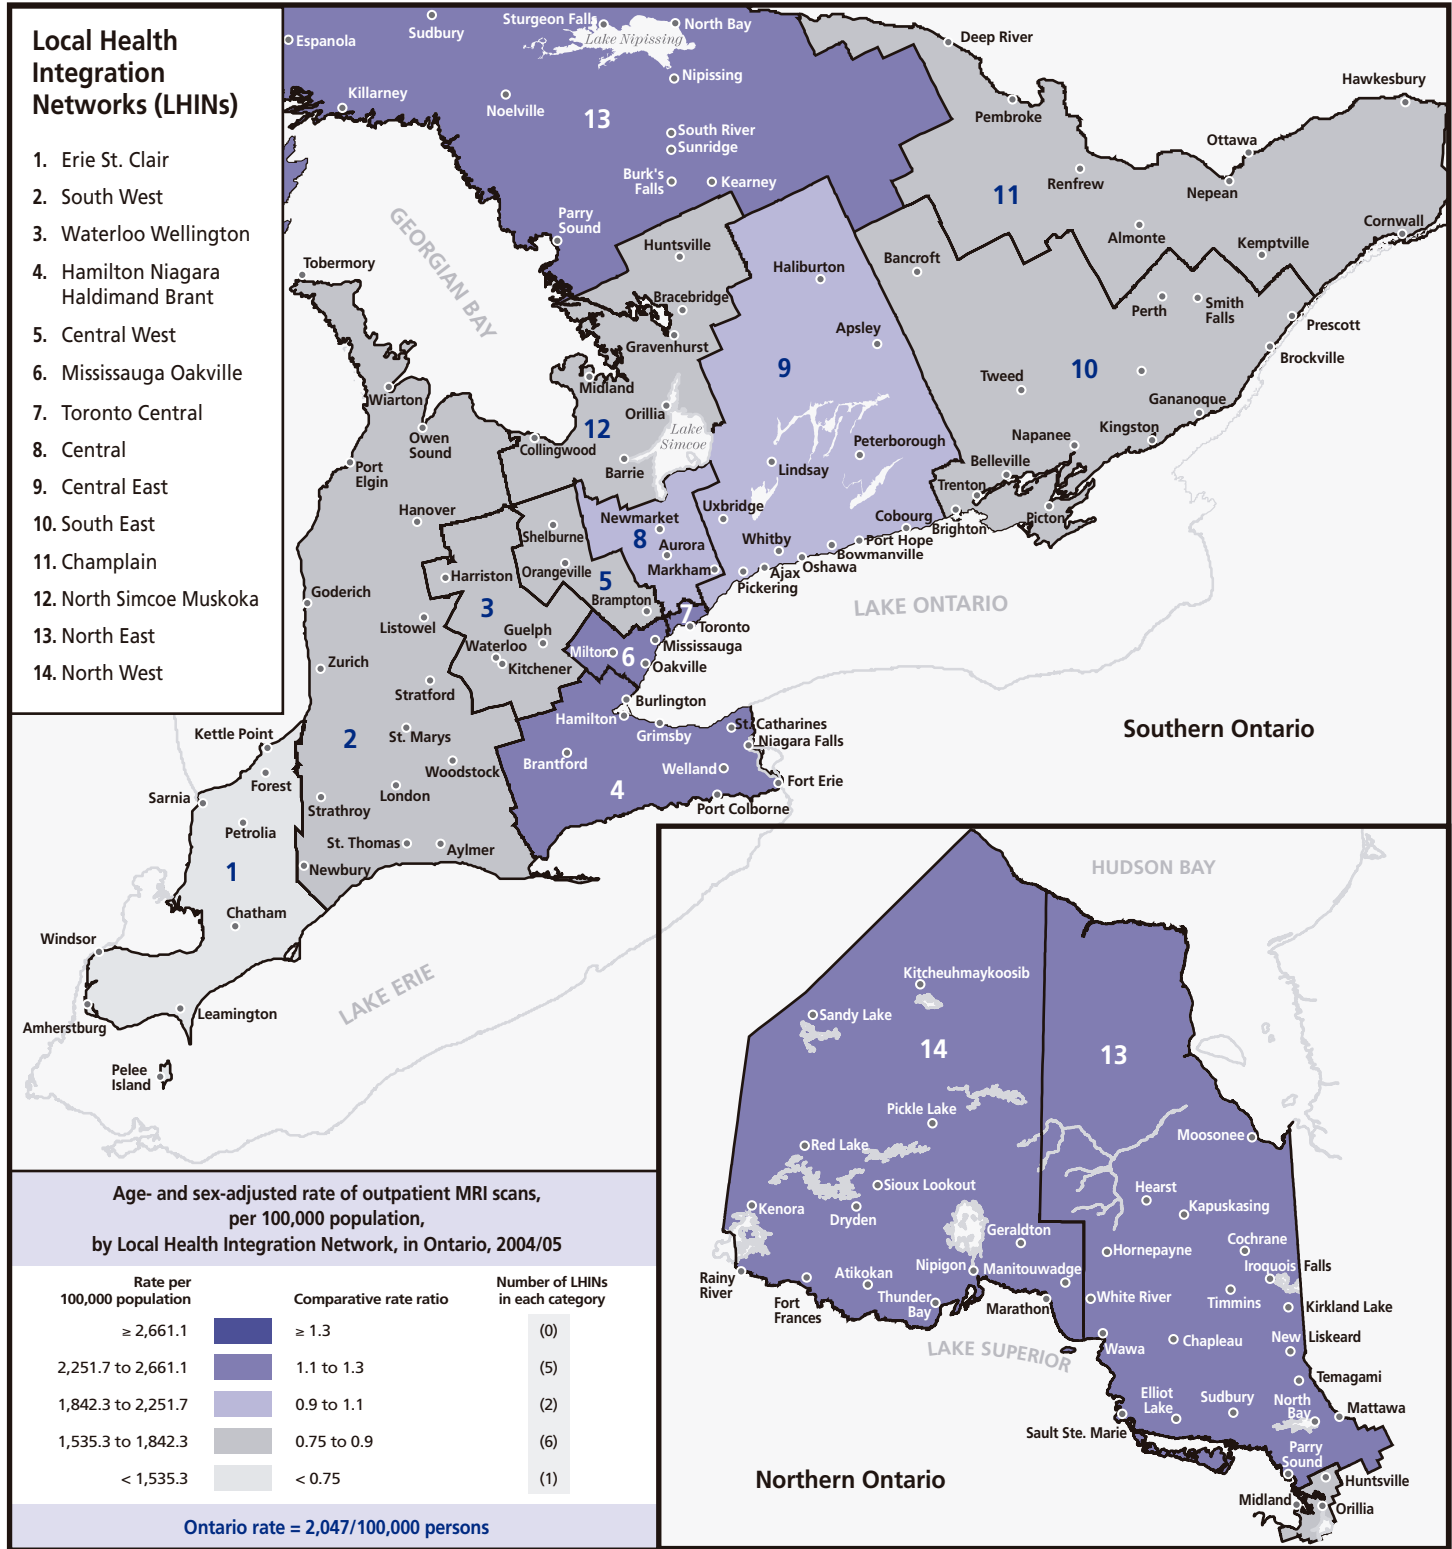

Sources: Ministry of Health and Long-Term Care—Ontario Health Insurance Plan (MOHLTC-OHIP), Registered Persons Database (MOHLTC-RPDB); Statistics Canada—Postcensal population estimates and Postal Code Conversion File

Map 12

Age- and sex-adjusted rate of outpatient MRI scans, per 100,000 population, by Local Health Integration Network, in Ontario, 2004/05

Sources: Ministry of Health and Long-Term Care–Ontario Health Insurance Plan (MOHLTC-OHIP), Registered Persons Database (MOHLTC-RPDB); Statistics Canada–Postcensal population estimates and Postal Code Conversion File
