

ICES Public and Community Engagement Action Plan

Public Advisory Council

Provide public perspectives to guide the organization.

Engagement with Community Organizations

Promote meaningful and equity-centered engagement.

Impact of Public and Community Engagement at ICES

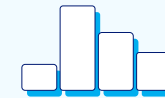

ICES research and initiatives that are transparent and aligned with public and community values.

Communities that can access ICES data and analytics to improve health outcomes.

Research guided by a community-informed framework for anti-racist approaches to research and analytics.

Responsible and ethical use of ICES data by researchers.

Thought leadership and internal capacity in conducting equity-centered engagement guided by communities.

Ongoing collaboration and knowledge sharing with partners, stakeholders and decision-makers.

Material made for the Public

Build awareness and trust in our work and strategic plan.

Resources for Researchers

Create new resources to guide engagement and health equity in research.

Engagement-Focused Actions

Capacity-Building Actions
